THE WORLD OF MEN AND DJINN

Man, (Adam), Mind is the Vice-Regent for the Creator in the physical material world, is "The Crown of Creation". Many have misunderstood the meaning of the word man. Most of us think that the man is synonymous with the male biological form that he uses to manipulate the physical material world. The word man is used to describe the existence of an immaterial non-physical (male/female) being that was created in the likeness and image of its creator. We have come to call this invisible, incomprehensible, unimaginable, indescribable part of the creature, mind. The fact is that within the male body that is made and fashioned from the the Earth's physical matter there exists both Man and Djinn creatures that make up the mind of the human being. Man, and Djinn share a symbiotic relationship in the physical composition of the human brain.

Woman, **(Eve)**, **Womb of Mind,** made to help man meet his destiny, (And the Lord God said, "It is not good that the man should be alone; I will make him a helpmeet for him.") is the "Mother of Civilization". *A man goes into a woman and comes out of a woman.* A physical female form of woman gives birth to the son of man's physical body. Man and Woman together help to awaken the son of man's mental body. The son of man is able to recognize reality by the amount of truth, introduced via five senses (Touch, Smell, Taste, Sight, and Hearing). The stimulus connects the divine mind to the human brain, allowing his spiritual body to interact through his mental body enabling the physical body relationship with the True Reality of the physical material world and the world of mankind. Woman in the world of mankind is represented as church schools and other social institutions.

Djinn, (Iblis), Essence, controls the subconscious primal "reptilian/serpent," electrical chemical structure (Medulla, Pons, Cerebellum, Midbrain, Globus pallidus, and Olfactory bulbs). responsible for basic survival functions like breathing, heart rate, and basic instincts… Neurological and physiological. **The Man** controls the conscious, advanced cerebral cortex structure of the brain (which is implicated in conscious thought, language, and reasoning,) Psychological and analytical.

When a man does not rule his djinn, he is no longer a man he becomes what is called a gentile, gentleman, mankind (the djinn essence) in a male physical body. The djinn then can rule that kind of man VIA his emotions thus controlling his behavior. in the attempt to satisfy his primal needs, he becomes materialistic leading him to physical destruction

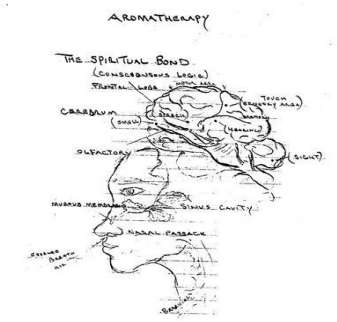
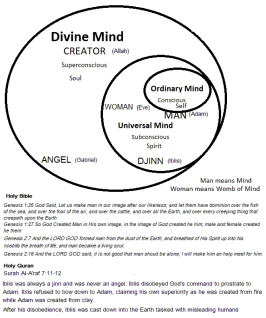
The World of Man

Revelation 13:18 “Here is wisdom: Let him that hath understanding count the number of the beast, for it is the number of a man; and his number is six hundred threescore and six.”





MAN from the ancient word MANU

MAN means MIND (The meaning of Manu is 'Wise, Attractive, Ruler of the earth, Founder father of human beings. ')
Christian Science: the compound idea of infinite Spirit: the spiritual image and likeness of God: the full representation of Mind

Ordinary Mind – The mind like unto the prototypical creation that has survived by way of evolution and adaptability. *Genesis 2:7 - Then the Lord God formed man of dust from the earth and breathed into his nostrils the breath of life; and man became a living soul.*

- *Simple consciousness*, possessed by both animals and mankind –
- *Self-consciousness*, awareness possessed by mankind, encompassing thought, reason, and imagination.
- Sub-consciousness is the part of your mind which operates without your awareness and over which you do not have active control.

Universal Mind – The original mind that was created possessing knowledge, power and control of all things created. *Genesis 1:27 So God created man in His own image and likeness of God He created him; male and female He created them.*

- Cosmic consciousness **mystical experience** (sometimes regarded as the highest of all higher states of consciousness)
- God consciousness of, relating to, or concerned with abstract spiritual or metaphysical. Ideas cosmic wisdom.
- Pure consciousness is our spiritual essence. Being infinite and unbounded, it is also pure joy. Other attributes of consciousness are pure knowledge, infinite silence, per-fect balance, invincibility, simplicity, and bliss. This is our essential nature.

Divine Mind –

- The manifestation of the expressed will of the Creator revealed by way of an Angel to His messenger, prophet or warner.
- Reveled Scripture the Divine word conveyed to the mind of man by way of Divine inspiration that is to be delivered to mankind

A world of Gentiles

A Man should ride his Djinn as one would ride a horse.

Inhabitants in the Earth before prophet Adam (PBUH) who was fashioned from the mud of the Earth were creatures having the **Jinn Nature.**
"Djinn" this is a non-physical non-material highly intelligent creature. A created being, whose essence is that of intense fire that does not emit smoke. It is not known how much time elapse between the making of Adam from the dust of the Earth mingled with water and the creator breathing of his spirit up into the nostril of Adam. The kind of man that existed on earth before prophet Adam (PBUH) had the nature of both Djinn (fire) and Human (water). Some where good others were evil. They evolved as families and tribes, forming cultures that are referred to in scripture as trees that have roots, branches, leaves, and fruit. "The forbidden tree, the knowledge of good and evil" and "the tree of life."
This was the time before recorded history (around 6,000 BC) that was revealed to prophet Abraham (PBUH) in the Suhuf "Scrolls of Ibrahim", which were scattered throughout time. Some of the remnants were restored by prophet Moses (PBUH) in the Tawrat "Torah" book of **Genesis**.

(PBUH) *peace be upon him

When a man accepts falsehood, the human nature begins to be ruled by the djinn nature.

The substance that can change through all four states of matter is water; it can exist as a solid (ice), a liquid (water), a gas (water vapor), and under extreme conditions, as a plasma (Lightning).

The Christ (Mahdi)			***The Antichrist (Dajjal)***:		
Water the 4 States of MIND Being/Good			Fire the 4 states MIND Being/ Evil		
Physical.	**Mental.**	**Spiritual.**	**Mental**	**Spiritual**	**Physical**
solid,	Disbeliever,	Ice.	Disbeliever	Devil	Fire
liquid,	misbeliever,	Water.	Nonbeliever	Demon	Smoke
gas,	believer,	Steam	Misbeliever	Imp	Ash
plasma.	true believer	Lightning	Hypocrite	Djinn	Nuclear fusion

The phrase "deception of nine tenths of the world" is most commonly associated with **Islamic eschatology** regarding the **Dajjal** (the False Messiah or Antichrist). While it is not a direct quote from a single canonical text, it summarizes a widely held belief about the scale of his influence. **The Dajjal's Deception:** In Islamic tradition, the Dajjal is a figure who will appear before the Day of Judgment to lead people astray through miracles, illusions, and material wealth. The Mahdi (Arabic for "the Guided One") is a prophesied messianic figure in Islam who will appear before the Day of Judgment to restore justice, eliminate evil, and establish a global Islamic kingdom, often associated with the return of Jesus Christ, Sunnis believe he's a descendant of the Prophet Muhammad who will rule for a few years. In the Quran, after Satan (Iblis) is expelled for refusing to bow to Adam, he makes a direct vow to God to target believers specifically on the path of righteousness: "[Satan] said, 'Because You have put me in error, I will surely sit in wait for them on **Your straight path**'" (Quran 7:16). He explicitly mentions he will attack from all sides (front, back, right, left) so that most will not be grateful to God. He later clarifies that he will mislead everyone **except** God's "purified" or "sincere" servants (Quran 15:39–40, 38:82–83). In the New Testament, Jesus warns of a deception so powerful that it targets even the most faithful: **(Matthew 24:24)** "For false Christs and false prophets will arise and perform great signs and wonders, so as to deceive, if possible, even the elect". The phrase "if possible" suggests that while the deception is nearly perfect, the "elect" (God's chosen ones) are divinely protected from being fully or finally led away.

Words make Worlds

The meaning of the word

Shit-tan (Satan) The Enemy is not a created being! The Satan is a non-entity. It has no existence of its own. This is a figment that the rational mind (the djinn, mentality) produces in the absence of truth. It functions like a serpent that feeds on lies, illusion, doubts, and confusion.
Human being a creature made from "Humus" the dust of the Earth, (dust and water fashioned into shape) having the spirit of the Creator breathed into His nostrils. The nature of the man is that of water. Man means Mind! The nature of the human being is that of sounding clay. Sounding clay is a type of earth, that when moist with water (morality) can be easily shaped (receive an impression), when set, can be struck (with truth) resonate that which was impressed (the word). The human being has the freedom of choice to obey the word of the Creator or to disobey. The human has the limited free will to choose the direction of growth either from dust to industry or dust to divine.
Djinn is a creature that is now commonly referred to as spirit was created before the creation of man, that ruled a universe that existed before the physical universe. Some of these creatures followed a leader. Lucifer, (iblis) that ranked high among the angels. He and some of his followers who rebelled against the creation of human beings were cast down from the heavens into the dust of the Earth. The nature of the djinn is that of intense fire so hot that it consumes everything and does not give off any smoke. (Electrical chemical reaction.) Djinn only obeys logic and reason. Leader of djinn Is known in the Bible by the name; Lucifer, who was not an angel. He was given a high rank because of his obedience to the Creator; therefore, allowing him to rule among the Angels. The djinn is a contender within the human being who has vowed to prove that the man is unworthy to be vice Regent in the physical material creation. The man (original mind who submit to the Will of the Creator) must contend with the inner djinn and the outer djinn, mankind (those who are ruled by their djinn.)
Angel is a creature that was created to carry out functions (The Will of Creator) in creation. The nature of an angel is that of pure light "a perfect being". Angels have no will of their own and take on any form of the Creator's Will. They can only obey the Will of the Creator. They are messengers that carry out the Will of the Creator within the creation.

*“In the beginning when God created the heavens and the earth, [1:2] the earth was a formless void and darkness covered the face of the deep, while a wind from God swept over the face of the waters. [1:3] Then God said, "Let there be light"; and there was light.” **Book of Genesis.*** **[1:1]**

Darkness

THE DJINN “FACE OF THE DEEP”

It is used to depict moral corruption, ungodliness, and the absence of God's light. Symbol of Ignorance and Divine Mystery: Besides negative connotations, darkness also serves to represent human ignorance, lack of understanding, and the enigma of divine aspects beyond our grasp. Their face was blackened by their deep thoughts, in the attempt at understanding the unknown.

Light

Asiatic Black Man

Asia therefore must signify the inner, the spiritual, in individual consciousness, wherein lay the beginning of man's conscious existence, and wherein lies the dawn, or rise, of the light and wisdom of his new day of spiritual understanding and realization.

وَمِن شَرِّ غَاسِقٍ إِذَا وَقَبَ

And from the evil of the darkness when it overspreads (takes over)

وَمِن شَرِّ النَّفَّاثَاتِ فِي الْعُقَدِ

And from the evil of those who practice secret arts and witchcraft (the blowers in knots)

وَمِن شَرِّ حَاسِدٍ إِذَا حَسَدَ

And from the evil of the envier as he practices his envy (a jealous person when they have become jealous)".

The subconscious mind is able to affect the brain by way of electrical chemical reaction.
The response to falsehood is psychosomatic psychiatric behavior
Psychosomatic relating to the interaction of mind and body.
Psychiatric relating to deleterious mental conditions. These include various matters related to mood, behaviour, cognition, and perceptions
Behavior the way in which an animal or person acts in response to a particular situation or stimulus.
Christ: The word Christ (Christo) means in Greek the anointed one, or Hebrew (Messiah) one who is anointed.
Apostle Was an Eyewitness of the Resurrected Christ the anointed one, the son of man born into this world, and live among us must be afflicted and influence by its falsehood and oppression design to crucify his spiritual Christ body (spirit) existence. Being anointed with truth is the physical body (self) to witness the resurrection of the mental body (man).
So, one of the men who have accompanied us all the time that the Lord Jesus (PBUH) went in and out among us, beginning from the baptism of John (PBUH) until the day when he was taken up from us—one of these men must become with us a witness to his resurrection. Jesus (Isa) "peace be upon him" God's Holy Prophet did not die on a cross, nor was he ever crucified. In truth it is the body of his teachings. and all of those who believe and follow the corrupted version are the ones who are being crucified!
God*: The word God comes from the Gothic translation of the New Testament to represent Greek Theos and Latin Deus. But God, Theos, Deus, Lord, or even Yahweh is not his name.*
The word God means that which has power and control over you… The word God is not a name. the proper name of God is Allah!
He has many attributes that he is called upon by his worshipers in whatever language they speak.
The word for God
In Arabic "al-ilāh"
In Hebrew "Elohim "
"Allah" is different to the word "God" in many ways. Bismillah. As Salaam mu alaikum. (with the name Allah, the peace be upon you)

1) Allah means "Al Ilah" Al for "The" Ilah for "God." So, Allah means "***The*** God" and the Pre-Islamic Arabs who were polytheistic had other "gods" beside Allah, but Allah was known as the Immaterial God - they (the pagan Arabs) recognized Allah swt as Al -Khaliq (The creator) but refused him as their "Rabb" (Lord). So, in reality Allah is the immaterial unseen God.
2) Unlike in English the word God can be changed into "gods" "goddesses" "demigods" etc.

(i) Whereas Allah despite being in a language which like spanish etc. has feminine and masculine (is a gender based language), the word cannot be made into either of these genders and is genderless. *Subhan allah* (سُبْحانَ الله)

(ii) Also, the word Allah cannot be made into a plural, and therefore, in the arabic languages there are two words for God: Allah - the immaterial God and Ilah - "god(s)"

So, in reality, when we compare the word "Allah" to "God" we find "Allah" to be more unique and of a befitting nature to Allah itself.

Copyright 2025 TAWA Promotion

FUN FACT: (for the reasons above - i.e. the uniqueness of "Allah") the bible uses the word "Allah" for God instead of "Ilah" when it is translated in Arabic.

Vice Regent: It means to rule or reign. God has appointed humans as his vice-regents in order to exercise his purposes, plan, and will in all creation. “The Original Man is the Asiatic Black Man, maker, owner, cream of the planet Earth, God of the material world and Vice-Regent in the physical creation.”

Manu (man) Means Mind
Nubian (Blackman) Deep Thinkers
Mu (Oracle) Prophecy of Doom
Nun (Word) Divine Revelation
Ruh (Soul) Spirit Life
Human: (mind in earth) Man in Humus also
Hue: many colored **Man:** mind

Humus (Clay)
In classical soil science, humus is the dark organic matter in soil that is formed by the decomposition of plant and animal matter. It is a kind of soil ... the Latin word for Earth.
(brown “mortars clay” also known as red clay that when influenced by fire (falsehood) hardens after it being fashioned into shape, but when struck with truth, breaks and crumbles into pieces! The black “potters clay” takes on the shape that it is fashioned then cools in the designed form to be struck with truth resonating the sound of that truth”)

The Real World

Worlds are formed by words. The Creator created the universe that we exist, the True Reality with one word “BE” … and it “is” only by His Will do all things exist. Man is a created being innocent, inquisitive, intuitive, imaginative, with rational mind, limited free will, having the ability of judgment, logic, reason, and abstract thought. The Creator commanded man to name everything in the creation… the mental body of man thereafter would become a mirror of the creation (perceive Truth) allowing the inner world of the mind to interact with the physical material creation. Having this connection, the Creator could then breathe of His Spirit, Will (the breath of life) that would form man’s spiritual body and man would become good…, a “Living Soul” (an eternal being).
The world of evil is formed by falsehood. When the true revealed word of the Creator has been concealed or corrupted the Inner world of the mind

Copyright 2025 TAWA Promotion

becomes confused, making it difficult to communicate with the human brain (Mind in Earth) affecting the physical body's emotions and behavior. This is the beginning for the making of a devil (doer of evil). When this occurs, an alternate reality of illusion comes into existence within the mind's inner world. There is now a duality rather than the singularity between the inner and outer world. This devil mind, like the serpent uses rationalizations, excuses, and lies as justification for evil deeds. Truth and falsehood are the cloak that veil the deceptive intentions. The mind and its attempt to achieve a balance conceives, a god that stands for the good and a Satan that is the evil. Before the introduction of falsehood, the mind could only perceive the Creator as One.

The more truth the mind receives the more it becomes one with the Creator…

The Real Human

In His Christ Body

Everyone, when they hear the word Christ, they think of prophet Jesus may the peace be upon him, but they do not understand the meaning of the word Christ Christ is a name given to describe an attribute of the Creator of the universe. The prophecy of Jesus is that there would be a last Prophet. Messenger who would deliver the Creators final revelation to all the worlds that would cause the rise of human civilization.

In Christian theology, "the Body of Christ" refers to the collective community of all believers in Jesus Christ, essentially meaning the Church, where Jesus is considered the head and each individual believer is a part of that body, signifying unity and interdependence among all Christians; this concept is primarily drawn from the teachings of Apostle Paul in the New Testament, particularly in 1 Corinthians 12:12-27 where he uses the metaphor of a body with many parts to illustrate this unity in the human beings rise from

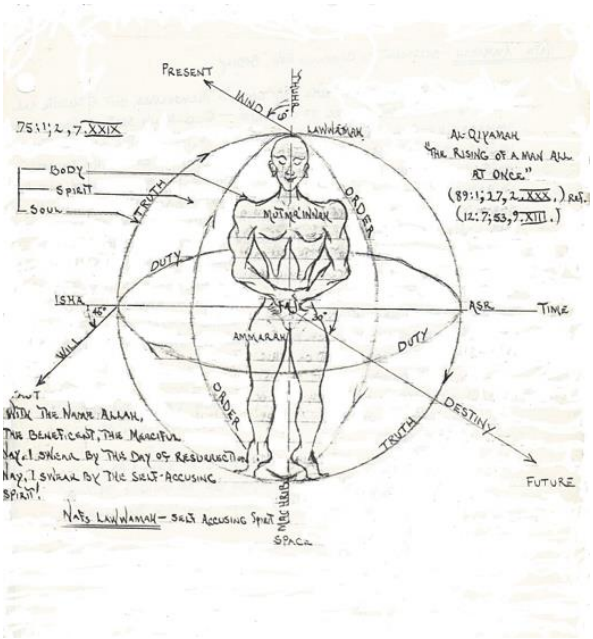
Nafs Lawwamah -The Self Accusing Spirit



Nay, I swear by the day of resurrection, I swear by the self accusing spirit!

The object of an oath has already pointed out, is the point to an evidence of what is manifest to establish a truth. It is striking that the resurrection is here spoken of as the evidence of the resurrection. It is really the spiritual resurrection that is evidence of the great resurrection. The clue to this is contained in the verse I swear by the self accusing spirit, the self accusing spirit (Nafs Lawwamah) is the first stage in man's, spiritual resurrection. It is the stage in which the inner self of man asserts itself when he does evil, the human in man become stronger than the animal in man.

Nafs Ammarah – Self Wont to Command Evil

The righteous never attribute any good to themselves but attribute all good to the great source of goodness, God. Man's self is here called Ammarah, the one wont to control evil. It is in fact, the lowest stage in the spiritual growth of man it is what may be called his animal self. The low desires and animal passions rule the mind of

man, and he is capable of doing any evil without feeling any pangs at all. He submits to his carnal desires like the brute. The next stage is called the Lawwamah, which is referred to as the self accusing spirit when the slightest departure from the path of rectitude at once rose the pangs of conscience. The third stage is the stage of perfection. – The Mutma'innah, or the sold at rest when it is in perfect peace, having obtain the goal of perfection. Those who have attain the goal of perfection are spoken of as those on whom my Lord has mercy.

Form-u-la:

- **Form** – Surah, or pattern of design (as in the natural order of things within the divine plan of Allah).
- **You** – Nafs, the characteristics of self (as in the inherent individual make up of the unique details with relation to the being created by Allah).
- **La** – Mustaqiyum, or searcher who has freedom and seeks security (in such case is to give emphasis to the oath, "La-illa ha I'll-Allah" (there is nothing worthy of worship but Allah) "There is no God, but Allah"

Nafs Mutma'innah – Self Contented Soul

Refers to the highest stage of the spiritual development of man, the stage in which he rest contented with his Lord and finds his quietude, his happiness, and his delight in him. This is the heavily life. The holy Quran recognizes three stages in spiritual

development, the Ammarah, or animal stage the Lawwamah or human stage, and the Mutma'innah, or the heavenly or spiritual stage. At this last stage, Almighty God rewards the pure, perfect, sincerity, truth, and righteousness of a person. God grants him a heaven on this earth. All others look to a perspective paradise, but he enters paradise in this very life. It is at this stage that a person realizes that the prayers and worship, which at first appeared to him as a burden are really in nourishment on which the growth of his soul depends. He realizes that this is the basis of his spiritual development. The spirit, which is the second stage, although blaming a man for the impurities of life is yet powerless to resist the evil tendencies or to block them out holy and to inform to establish a man upon the principle of virtue with firmness now reaches a stage of development in which its efforts are crown with success. The state of struggle with sinful propensities passes away and entire change, comes over the nature of man and the former habits undergo a complete transformation.

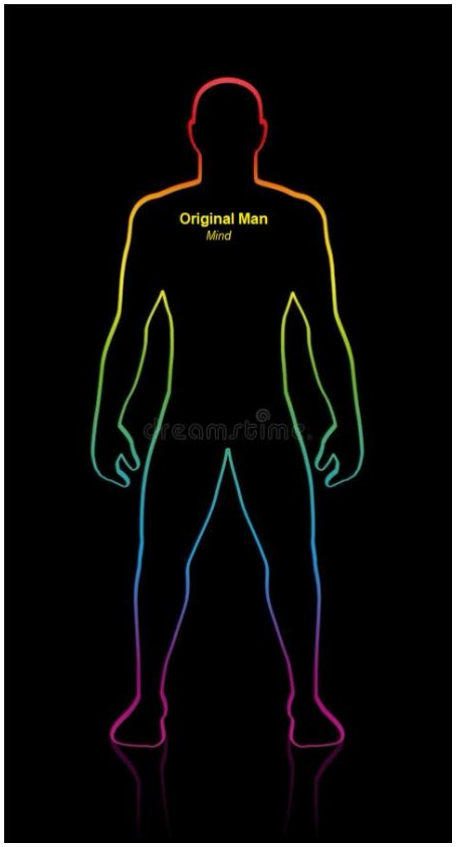
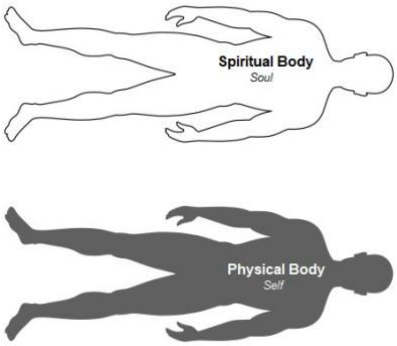
The Original Man



The original creation of man occurred in a void of total triple darkness. Other creatures inhabited this infinite cosmic realm that existed before the creation of the finite physical material universe. The Angels, intelligent beings, having no will of their own who sole purpose is to carry out the will of the Creator. The Djinn, highly intelligent beings having free will to serve the Creator. In the likeness and image of the Creator the conception of man is in an upright posture. Meaning that his" Surah" divine purpose, and ultimate destiny as an eternal being is ordained to be righteous.



The Human would be made from black, stinking mud fashioned into shape. Formed from the dust of the Earth in a horizontal position, the "Nafs al wahidah" (Self Design), which would include the nature, character, attitude, mood, and behavior allowing for the body to exercise a limited free will. When the Creator breathes of His spirit into the human being, He becomes a living soul. The formless eternal soul can exit and enter the human body upon the Creators command. This phenomenon usually occurs during a certain part of the sleep cycle of the conscious mind.

Human Being

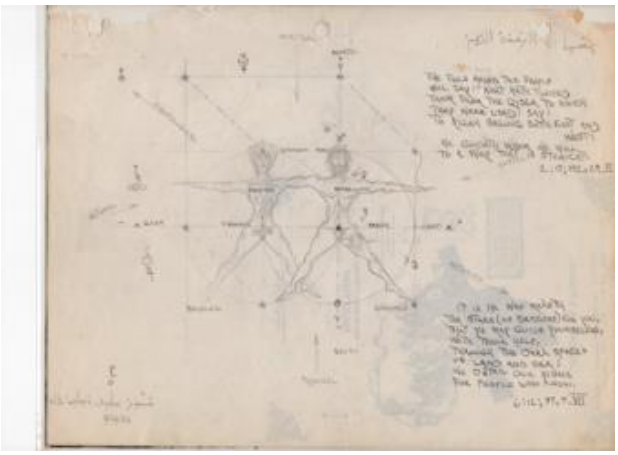
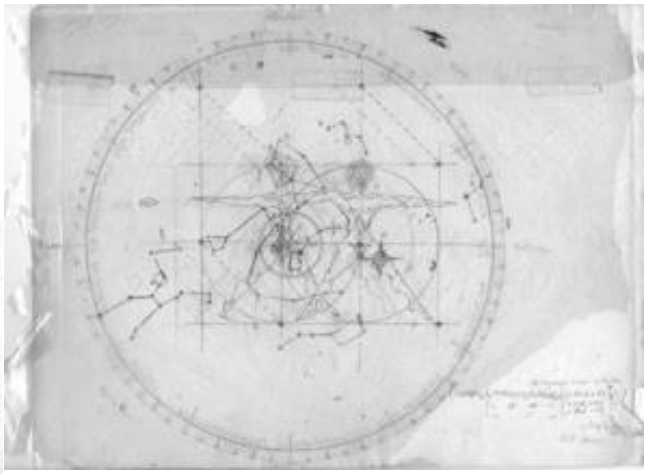
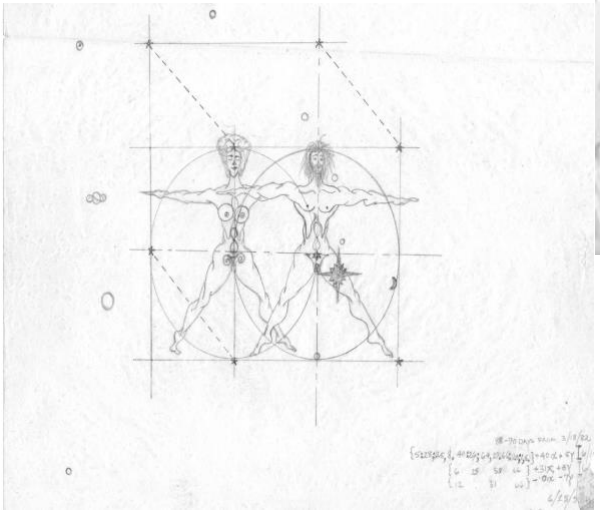
Man is created as a single soul, male, and female.



The Original Man being first and only one of its kind to be created… Is mind in the likeness and image of its Creator. This mind has a destiny to become a masculine, male, dominant force in the creation. This can only be accomplished by the Divine Will of the Creator and help of the woman. The feminine, female, submissive womb of mind from which all others will be reproduced serves the Creator by being a companion and contender in the world of man.

During the sleep cycle a bone from the physical body of the original human was taken to make the physical body of woman, who's purpose is to be a helpmeet for the man. With the help of





woman, man is able to meet his ultimate destiny… man goes into woman and comes out of woman.

The process of man's creation occurs in three stages. The Creator creates the whole of creation once in a single word (vibration) BE! Nothing exists, except by the Will of its Creator. The first stage begins as an idea in the Divine Mind. The next stage Is its formula within the natural order (Law) of the creation. The final stage is the manifestation (reality) of its development as it evolves to its perfection.

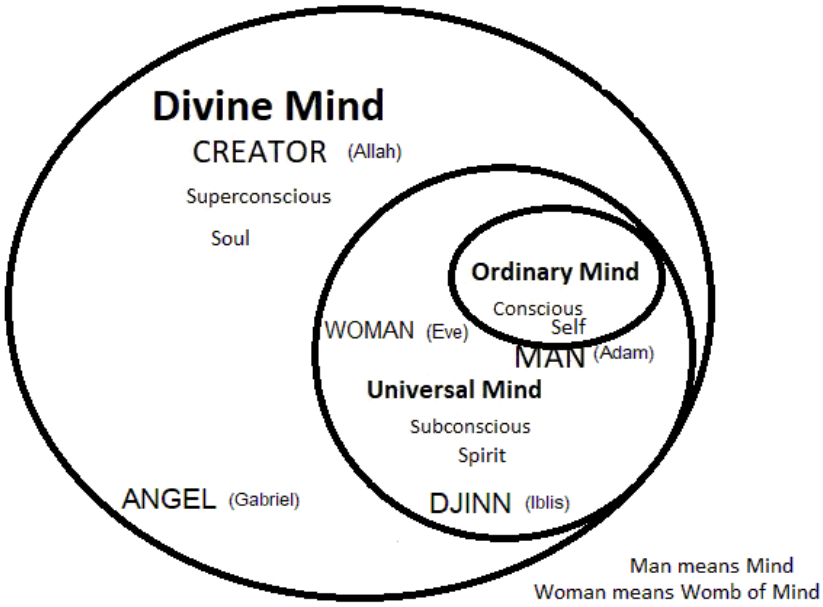
Djinn Essence in the Human Reality



Holy Bible

Genesis 1:26 God Said, Let us make man in our image after our likeness; and let them have dominion over the fish of the sea, and over the fowl of the air, and over the cattle, and over all the Earth, and over every creeping thing that creepeth upon the Earth.
Genesis 1:27 So God Created Man in His own image, in the image of God created he him; male and female created he them

Genesis 2:7 And the LORD GOD formed man from the dust of the Earth, and breathed of His Spirit up into his nostrils the breath of life; and man became a living soul.

Genesis 2:18 And the LORD GOD said, it is not good that man shoud be alone; I will make him an help meet for him.

Holy Quran

Surah Al-A'raf 7:11-12

Iblis was always a jinn and was never an angel. Iblis disobeyed God's command to prostrate to Adam. Iblis refused to bow down to Adam, claiming his own superiority as he was created from fire while Adam was created from clay.

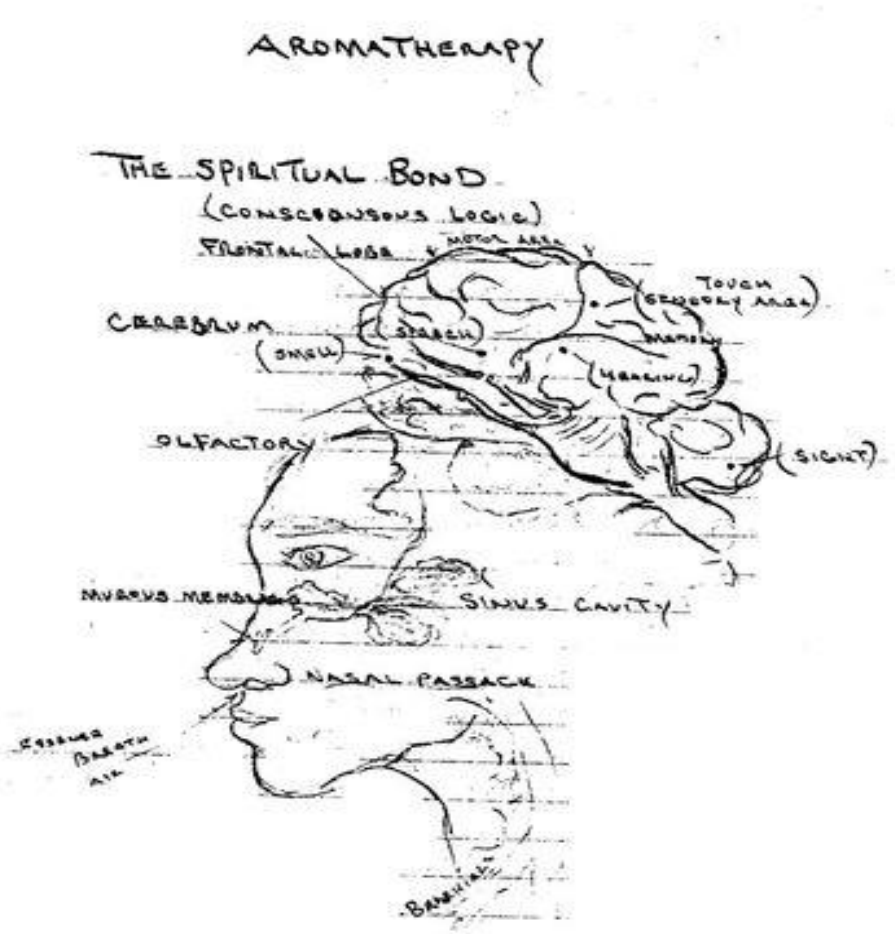
After his disobedience, Iblis was cast down into the Earth tasked with misleading humans

Man, the three in one God of the material world: *A man must grow through three stages in the one Human Development In life to achieve Human Perfection; wherefore, he is granted access to his Divine Mind.* The man is not to be worshiped as a God but is granted by his creator, whom he is to worship, the power and control of the matter in the physical universe. Harnessing These resources, allow him to fulfill his divine purpose. Therefore, the Man can rule his Material World like his Creator Rules the Natural Creation. The creator commanded nature to make obedience to man as a trial of servitude to his creator of replenishing the Earth as custodian (Husbandman). Through the worship of Allah in his ordinary mind, man gains access to his universal mind enabling him to conquer his djinn nature thus allowing his true human nature to continue to grow "From dust to Divine" Man from the realm of Divine mind becomes the true servant of Allah. Human man and woman are commanded to be fruitful and multiply. In their union, (husband and wife) bear the fruit of the tree of life," the birth of a child". They offer the child back unto the creator at the time of birth by, pronouncing the kalimatullahi in both ears are then responsible for the physical mental and spiritual growth and development of the male or female offspring. The girl needs to be raised as (female, feminine, woman) the Daughter of Zion. The boy must be raised as (male, masculine, man) Son of Man.

The Human Brain

Copyright 2025 TAWA Promotion

The human brain is made up of different parts that work together to enable movement, senses, memories, and organ functions. The two hemispheres of the cerebrum, each with four lobes, control opposite sides of the body. The brain also includes the brainstem, cerebellum, and other structures. The brain was made to allow the mind to interact with the physical material creation.



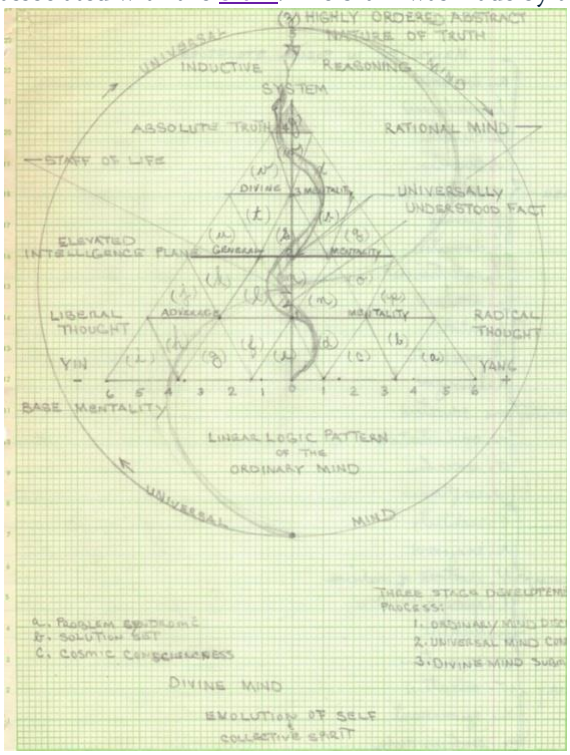
Allah created Man (mind) to rule the material world in the physical Creation.

The Mind

The fall of man

Copyright 2025 TAWA Promotion

The term "mind of man" refers to the totality of mental phenomena, including conscious and unconscious processes, that enable thinking, feeling, perceiving, imagining, remembering, and willing. It encompasses the internal aspects of human experience and how individuals perceive and analyze the world around them. The mind is not a physical object, but rather a collection of mental functions and processes that are thought to be associated with the brain. The brain was made by the mind. The mind according to his nature, uses the brain to work the physical body. The correlation of mind and body (the mental in the physical) is what makes the human.



Tower of Babel

TRANSLATIONS, INTERPOLATIONS, METAPHORS, SIGNS, SYMBOLS, ALLEGORIES, and LIES

Adam and Eve having their human nature intact were warned not to go near the tree of the knowledge of good and evil in the midst of the garden. The roots of this Tree convey Iblis' ancient satanic scheme to prove man unworthy. This tree stands for the descendants of Iblis (Lucifer). They did not live within the garden of Eden. The mist referred to the boundary having a dark and foreboding atmosphere east of Eden. The serpent in the tree is representative of rational, thinking in the mind of humans. The leaves of this tree symbolize the knowledge. Falsehood being the tree's fruit, when the truth is either omitted, corrupted, or distorted to rationalize and justify one's actions. NOTE: *The "tree of the knowledge of good and evil" was a tree in the Garden of Eden that God commanded Adam and Eve not to eat from. Eating the fruit from this tree was the act of disobedience that led to humanity's spiritual fall, separating them from God and resulting in their expulsion from the Garden. The fruit itself was not inherently evil; the prohibition was a test of their obedience and free will, and the act of disobeying was what brought about a knowledge of sin and shame.*

The human mind is like a garden that must be cultivated with Truth: (the teachings of Scientific Knowledge (ILM), and the disciplined Way of Life (ISLAM: belief in the oneness of the creator, prayer, fasting, charity, and pilgrimage). The power to master the control of life in the material world is obtained through religious devotion "reliance on the creators revealed word" (QURAN)

The holy Bible symbolically mentions the serpent (rational, thought process) in the genetic history of a people (having the Djinn Nature either good or evil). The Bible Chronicles the growth of this metaphorical serpent (the rational thought process in the individual) beginning in the book of Genesis into the Dragon (manifestation of the rational thought process through action of the collective) represented in the book of revelation. NOTE: The *title page of the Bible clearly states that it has been* "Translated out of the original tongues and with the former translations diligently compared and revised" *by his majesty's command to be read in churches. The knowledge, wisdom and understanding of the Bible was locked up with seven seals. The power to rule in the material world, therefore is kept, used, and passed on, by the architect to the master builder following the grand Satanic scheme to prove that man in his human nature, is incapable of being the representative of the creator in the physical universe. The secrets to the power to master the control are in the creators revealed Word. The word is corrupted seven times resulting in the book we called the Bible (the Latin word for two books) the Old and the New Testaments.*

Humanity

The children of Adam

After disobeying God's order not to go near the tree in the garden and being expelled from the garden of Eden, Adam and Eve repented and begged God's forgiveness, God forgave them, but they had to suffer the consequence of their disobedience. NOTE: The primary consequences of Adam and Eve's disobedience were spiritual death, separation from God, and the introduction of suffering and mortality into the world. This "fall" resulted in a loss of their original righteousness, a cursed environment with thorns and thistles, painful childbirth for women, and toilsome labor for men. The consequences were also hereditary, with future generations inheriting this fallen state and being separated from God. Man can choose to grow from dust to industry and/or dust to divine... Our father Adam (peace be upon him) had within him the seed of the man essence and djinn essence. He was industrious working with wood, stone, fire, metal, and water. Using tools, he began to manipulate the natural matter in the physical Earth. He was able to fashion a material world from Allah's natural creation. NOTE: due to Adam's original sin (peace, be upon him) the children of Adam do not receive the direct communication from Allah as our father Adam. The children of Adam subjected to their djinn mentality have made an industrial world of materialism. This is a world ruled by the metaphorical materialistic beasts referred to in the Bible's book of Revelation. There powers are controlling the Earth today. They are not human. They take on human like form working evil deeds as relationships and organizations (dynasties, secret societies, corporate conglomerates, nations, and global alliances). These entities conspire to keep the masses of Human Beings on earth ignorant. Using the system of divide and conquer they exploit human differences (racial, ethnic, national, and religious) making them weak therefore they have no power to stop or resist the oppressive tyranny. *The mercy of Allah has provided every generation born from the children of Adam and Eve, an elder to guide them in the way of truth. They would be servants of Allah. including. Prophets, Messengers, Warners, to lead and guide them. Muhammad Ibn Abdullah Peace and blessings be upon him being the last and final Prophet Messenger Warner to all of humanity. The prophecy of Jesus, son of Mary and Joseph (peace be upon him) that announces his coming that would bring about an end to the world of the wicked devils. NOTE: John 16:7 "Nevertheless, I tell you the truth; It is expedient for you that I go away: for if I go not away, the Comforter will not come unto you; but if I depart, I will send him unto you and he will lead you the way to all truths."* Even though Jesus isn't on earth in his body form, it is good that he sent the Holy Spirit to be with us. The Comforter (the Holy Spirit) is here because Jesus is not here on Earth and because it is better for us. Try not to limit the Holy Spirit, he does a lot more than you think. Jesus uses many adjectives to describe the coming of the Creator's last and final prophet, such as: The Comforter, The Spirit of Truth, The Prince of Peace. Allah's greatest miracle, The Holy Quran and the example of human perfection and righteousness in the life of prophet Muhammad manifest the completion of Allah's favor to man. The revelation of the holy Quran being impressed upon the hearts of devoted servants of Allah resurrecting their human nature from the spiritual death bought on by our fathers, original sin. This is the blessing of Allah's forgiveness, completing his favor unto man. Now, with knowledge, wisdom and understanding of the Quran there are many inspired human beings on earth today. Having in their hearts, the Holy Spirit, they become (muslim), one submissive to the will of Allah. As a collective humanity becomes the Resurrected Body Christ. Within the spirit of truth, a new heaven, a new earth, and the end of the sea of evil are brought into existence.

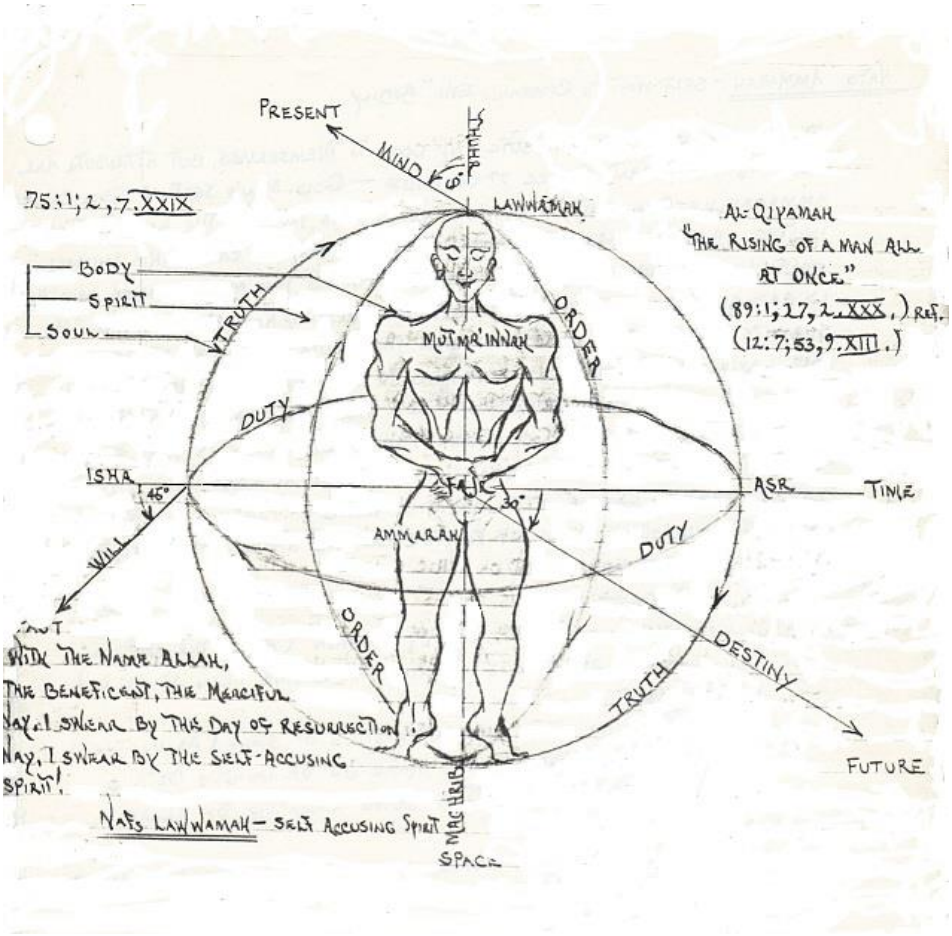
Crown of Creation

Destiny

Copyright 2025 TAWA Promotion

According to the holy Quran 7:54, God created the universe and everything in it in six days or "periods". These periods are not necessarily 24-hour days but are interpreted as intervals of Time in the Creation where God created the heavens and Earth, which were initially joined together. Specific verses detail a process where the Earth was created in two days, the mountains and nourishment were set in four days, and the heavens were completed in another two days, all within the six-day framework. NOTE: *The primary Bible verses detailing creation in six days are found in the holy Bible* ***Genesis 1****, describing the sequential creation of light, sky, land/seas, sun/moon/stars, sea creatures/birds, land animals/humans, culminating in God resting on the seventh day.* The Quran highlights God's command, "Be!", and it is, without need for rest, contrasting with biblical narratives by stressing God's eternal power. Not to contradict the Bible, the seventh day can be interpreted as the day of Resurrection as the completion of the rest of creation. The period of time involved for the resurrected human being to fulfill the divine destiny of growth from dust to divine.



The New Earth Team

Man's purpose in creation is often described as to glorify God, enjoy him forever, and to be his representative on Earth. This includes glorifying God through worship, enjoying fellowship with him, and stewarding creation responsibly. Different religious traditions, such as Islam, also emphasize the purpose of worshipping the Creator and being his "trustee" on Earth. In some philosophical and religious contexts, the purpose also includes fulfilling personal potential through a righteous life, pursuing prosperity, pleasure, and ultimately liberation. *In Revelation, the "first fruits" refer to the* ***144,000*** *described in Revelation 14:4-5, who are presented as a special group "redeemed from among men" and offered as first fruits to God and the Lamb, symbolizing their unique dedication, purity (virgins), and faithfulness, following the Lamb wherever He goes, representing the first of the greater harvest of redeemed believers, much like Christ is the first fruits of resurrection..*

Stage 3

Manifestation

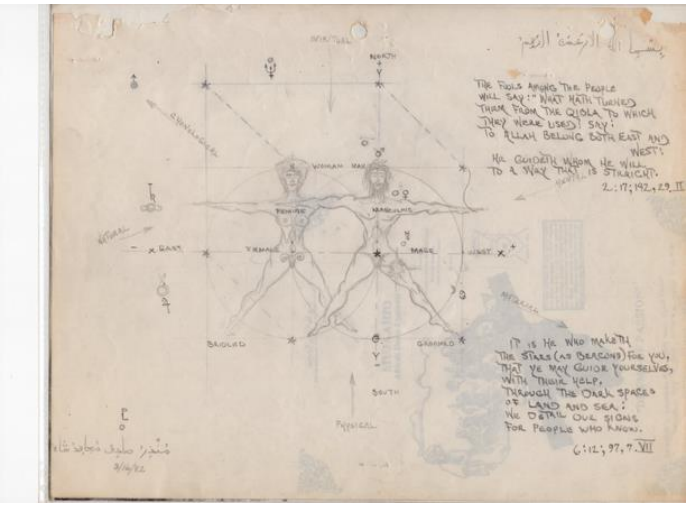
Genesis 2:19-25 King James Version

21 And the Lord God caused a deep sleep to fall upon Adam, and he slept: and he took one of his ribs, and closed up the flesh instead thereof;

22 And the rib, which the Lord God had taken from man, made he a woman, and brought her unto the man.

23 And Adam said, this is now bone of my bones, and flesh of my flesh: she shall be called Woman, because she was taken out of Man.

24 Therefore shall a man leave his father and his mother and shall cleave unto his wife: and they shall be one flesh.



The man being put into a deep sleep, stands for the time that Adam walked among the djinn inhabitants of the planet. He (innocent and ignorant), not being consciously aware of being different from them interacted, engaged, and learnt from the different families and cultures. The Earth was a garden populated, totally by humans having only a djinn nature. Adam was "a living soul" the only one of his kind (having the spirit of the creator breathed up into his nostrils). Adam was the most Righteous, Obedient and Submissive to the Will of the Creator of all the humans. While in the state of a deep sleep, Eve, although the spirit had not been breathed up into her nostrils was always there by his side. When Adam had awakened from the deep sleep, He became aware of Eve recognizing her ability to help contain the Divine Inspiration that the creator, had breathed up into him filling his heart and lungs until they would surely explode. His rib is therefore a symbol used to contain the Holy Spirit, but also the laws that govern being flexible yet firm (submissive). Adam was able to teach Eve all the Commandments, Laws, and the Will of the Creator that had been revealed to him. Her being submissive to his teachings made her like unto him, therefore she (her mind) was taken out of him (his mind). This is the beginning of the true human nature. Eve became the womb of Adam's mind (the first woman). **NOTE**: the lungs respiration like inspiration (breathe spirit in= Revelation) and aspiration (breathe spirit out= Worship) are vital qualities of life. The ribs, like the law hold, cause them to contract (keep them from over expanding), and have in its marrow, the essence of life necessary to reproduce the flesh of the human body.

Stage 2

Formulation

Genesis 2:7-18 King James Version

7 And the Lord God formed man of the dust of the ground and breathed into his nostrils the breath of life; and man became a living soul.

18 And the Lord God said, it is not good that the man should be alone; I will make him an help meet for him.

No, the universe was not created from the forces of "light and fire" as commonly understood, but the Big Bang theory describes the universe's origin from an extremely hot and dense state that included immense energy, which was a form of "fire" and generated intense "light". This primordial state expanded and cooled, eventually forming the fundamental particles and forces, and later, stars that produced light and heat.

Across major Abrahamic religions, the creator is generally believed to have created the physical universe **directly**, with angels and jinn being among His creations, not co-creators of the universe itself. Their roles are typically as servants, messengers, or inhabitants of the created world.

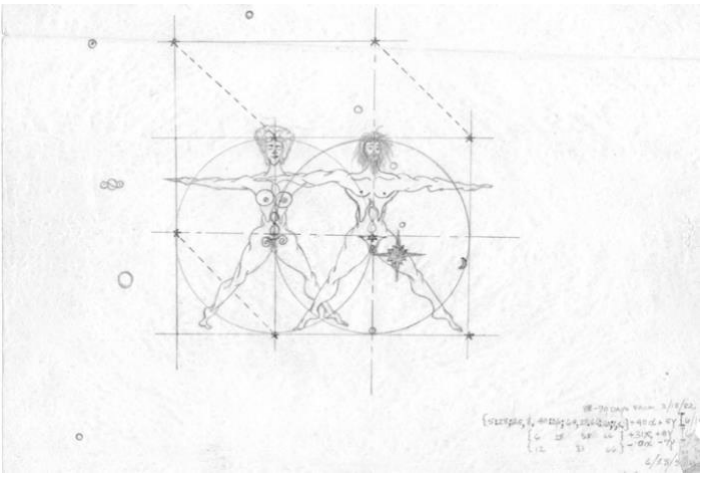
Stage 1

Conception

Copyright 2025 TAWA Promotion

Genesis 1:26-28 King James Version

26 And God said, Let us make man in our image, after our likeness: and let them have dominion over the fish of the sea, and over the fowl of the air, and over the cattle, and over all the earth, and over every creeping thing that creepeth upon the earth.
27 So God created man in his own image, in the image of God created he him; male and female created he them.



○ **38:71-72:** God recounts, "When your Lord said to the angels, 'Indeed, I am creating a human from clay. And when I have fashioned him and breathed into him of My spirit, then fall down to him in prostration'".

•Creating humanity from a mixed essence:

○ **32:7-8:** The Quran describes the origin of mankind's progeny: "He began the creation of man from clay and made his progeny from a quintessence of fluid".

○ **76:2-3:** God explains the mixed origin of man to test him: "Indeed, We created man from a mixed seed, that We might try him. So, We made him hearing, seeing".

The dialogue occurs after God commands all the angels to bow down to Adam, as a sign of respect and recognition of Adam's unique creation and status. Satan, who was among the angels (though from the jinn), refused to obey. Here are the specific verses:

- **Surah Al-A'raf (7:12):** God asks Satan (Iblis) what prevented him from prostrating. Satan replies: "**I am better than he; You created me from fire and created him from mud (or clay)**".

- The dialogue began with Allah commanding the angels to prostrate to Adam, but Iblis refused. When Allah asked Iblis for the reason, he arrogantly stated he was better because he was created from fire, while Adam was created from clay. Allah then declared Iblis to be an outcast, and after being granted a respite until the Day of Resurrection, Iblis swore to lead mankind astray.

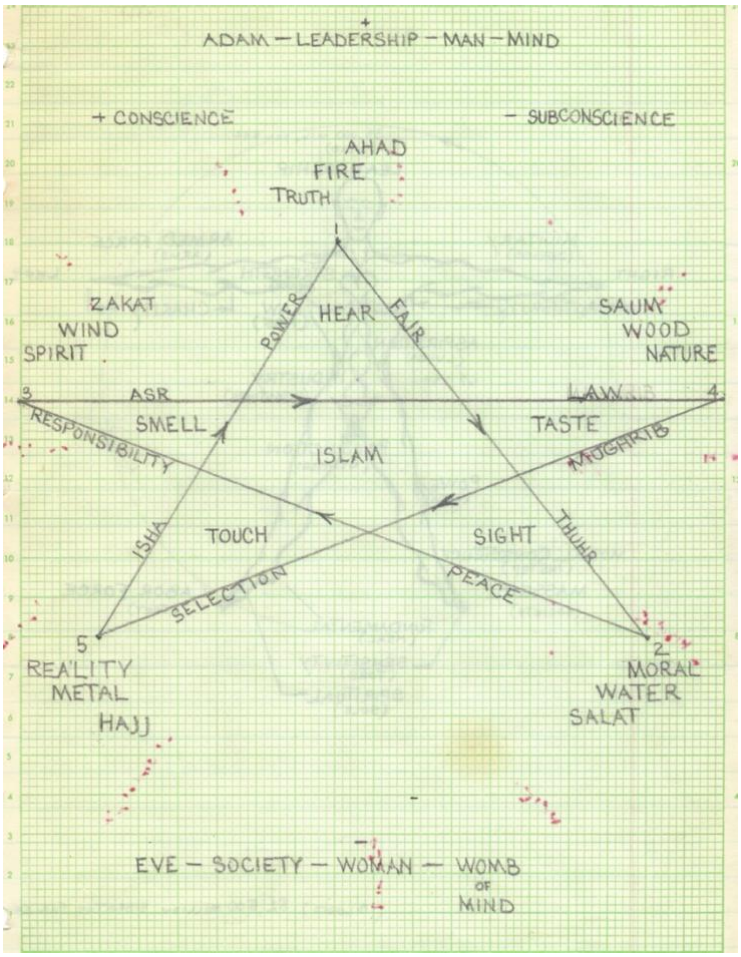
NOTE: These creatures (angels, djinn, etc.,) exist in an infinite creation described as heaven. At the time of this dialogue, there was no physical universe therefore the interval between Iblis and his followers being cast out of the heavens, and the creation of the Earth cannot be determined. The physical universe of time and space is a finite creation that exists within the original creation. NOTE: *Before the physical universe, angels and jinn existed in a realm created by God, though their specific domain is debated. Angels were created from light, while jinn were created from smokeless fire. The physical universe was created sometime after these beings, but the exact timeline is unclear***.**

The Human Nature

Copyright 2025 TAWA Promotion

The philosophy of human nature explores the fundamental characteristics and dispositions that define humans, including how they think, feel, and act. It's often used to describe the essence of humanity. The concept has been debated for centuries, with differing views on whether humans have a fixed nature or are more malleable

- **Mind vs. body:** Plato emphasized mental and spiritual characteristics, while Aristotle believed the mind and body are inseparable. Some thinkers consider the body part of human nature, while others see it as a container for the human essence.
- **Varying perspectives:** Philosophers like Confucius and Mencius believed human nature is inherently good, while Xunzi and Hobbes saw it as evil or leading to a "brutish" life. Judeo-Christian-Islamic traditions view human nature as corrupted by sin, but redeemable through God.



Peace is the natural order of our universe that can only exist under the divine law of Its creation.

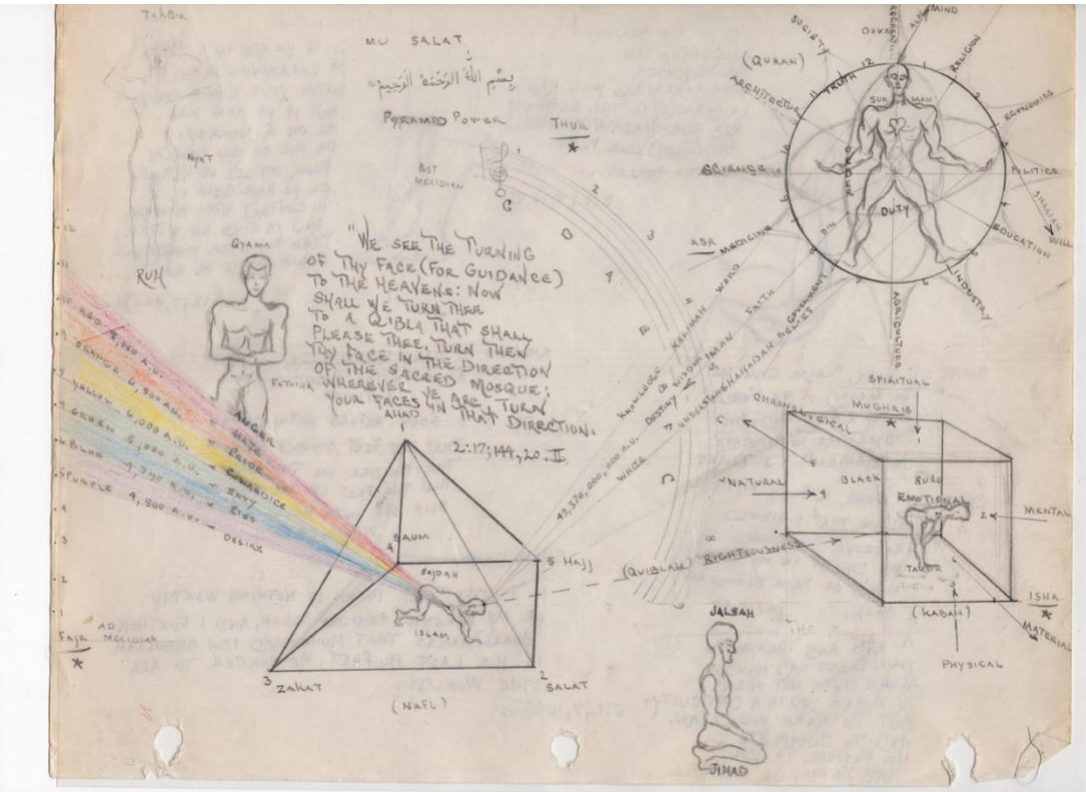
Allah the Creator and the only One worthy of worship



The concept of "all things created has its form of worship" refers to the theological idea that everything in the universe, from the smallest atom to the largest galaxy, was created by Allah and therefore exists as a way to glorify and praise Him, essentially acting as a continuous act of worship; this idea is most prominently found in the Bible verse Colossians 1:16, which states "For by Him all things were created, in heaven and on earth, visible and invisible, whether thrones or dominions or rulers or authorities; all things were created through Him and for Him.".

Evolution

Copyright 2025 TAWA Promotion

Soulful Perspective and Creative Expression: The finite physical material Universe bound by the mathematical laws of time and space was created in the domain of an existing infinite creation by Its creator. The material world is predestined with the order to try the human being from within the inner and outer worlds. Originating from a void that can be referred to as "Aether" the outer world evolved from the vibration of the word, "BE"! Nothing exists, except by the will of Allah (Originator of the heavens and the Earth)!

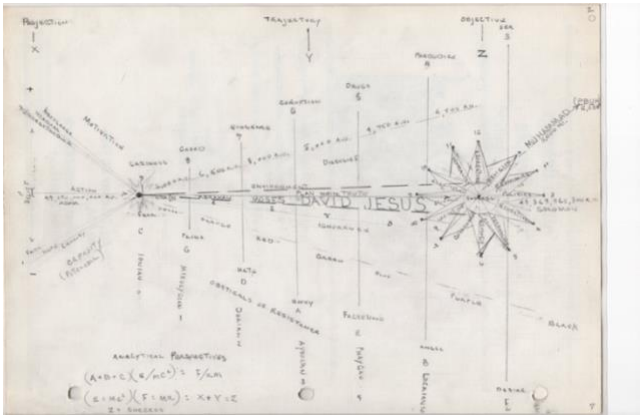
A field pervading space: In some modern theoretical frameworks, "ether" is used to describe a fundamental field, like the Higgs field, that permeates all of space.

Role in mass and gravity: These modern theories suggest this field is responsible for giving particles mass and can be used to explain gravitational effects in the universe without dark matter.

Iblis does not have a fixed physical form on Earth; as a djinn, it can assume various forms, while its original form was described as majestic before its fall. However, in popular tradition and some interpretations, when it is in a human-like shape, it is depicted with specific features such as a menacing grimace, "smoldering embers" for eyes, and seven hairs on its chin.

The Soul's Perspective: The soul man is the original mind, existing in an eternal realm, evolves through the trials, of life and death to decide upon judgment his destiny. With the breath of life, he enters the physical material world on earth. The original inhabitants of the Earth, the descendants of Lucifer (Iblis) having only a djinn nature (Humankind) were made from the dust of the Earth. They evolved on earth throughout the course of six periods before the making of Adam (descendent of the original man), the first One of his kind having the true Nature of Human Being, from the dust of the Earth. From the time of the creator breathing of his spirit up into the nostrils of Adam that would be the beginning of the seven periods of his Spiritual growth and development among the gentile (humankind) Therefore, Both the djinn nature and the human nature were occupying the mind of Adam. Each entity Struggling to control his Ultimate destiny. Would he rise from dust to industry or dust to divine?

Line of the Prophet



Throughout the time of the human being's existence on planet earth their growth and development has received guidance through Divine revelation and the examples of the prophets that the creator raised up among them. In holy scripture there have been 25 Major Prophets mentioned beginning from Adam the initial to Muhammed the final. (Peace be upon them) NOTE: *Number of Prophets: "The Quran explicitly names 25 Prophets, but Islamic teachings mention that there were around 124,000 Prophets sent throughout human history. (Peace be upon them all) Common Message: All Prophets preached monotheism (Tawheed) and urged their people to worship Allah alone."*

A prophet is a person who acts as an intermediary between a divine being and humanity, delivering messages, teachings, and divine will to others. They often speak God's truth, which can include denouncing sin, calling people to righteousness, and occasionally foretelling future events. Prophets receive divine revelation through various means such as Angels, dreams, visions, or a "still small voice," and their primary role is to make known God's will and character.

The duty of a warner is to deliver a divine warning, clearly and publicly, about the consequences of disbelief and to call people to repentance and the worship of God. This warning often includes a description of the painful punishment awaiting the unrighteous and the rewards of paradise for believers, serving as a crucial part of their prophetic mission to guide humanity. The prophet is not responsible for compelling belief, but for clearly conveying the message, with the ultimate accountability resting on the individual listener.

The duty of a messenger is to act as an intermediary between a divine being and humanity, delivering messages of divine guidance, warning, and hope. Their roles include calling people to repentance, enforcing divine law, and providing encouragement during difficult times. They serve as messengers for God, delivering scriptures and teachings to guide people toward righteousness and a closer relationship with the divine.

Ending on Earth

Allah allowed the Djinn, (Iblis, and his 300 followers) a time on earth to prove man unworthy to be ruler of the material world. Using lies, deception, and temptation, the djinn mentality in the human brain is able to influence the development of mankind's worlds growth from dust to industry. The mind under the djinn's influence of falsehoods, illusions, and confusion is therefore corrupted, and no longer able to pursue its destiny in the growth towards dust to divine.

Here is wisdom; let he who has understanding count the number of the beast, for his is the number of a man, and his number is six hundred, three score, and six.

THE BEAST OF MATERIALISM (6,666.666)

NOTE: In the Book of Revelation, the Beast (from the sea) symbolizes oppressive political power, often interpreted as the Roman Empire and later as the Antichrist, empowered by Satan (the Dragon) to persecute Christians and demand worship. A second Beast (from the earth), the False Prophet, arises to enforce worship of the first Beast, performing false miracles and instituting the "mark of the beast" for economic control, creating a counterfeit of Christ's kingdom on Earth.

6,000 year rule on earth (the devils time of influence)

Genesis

The djinn essence works sub atomically in the physical material world using electrical chemical reaction in certain parts of the human brain. The djinn essence is transmitted from generation to generation by way of its specific bloodline. The traits can only exist in the biological reproductive female human form, ovum (the egg), that provides the matter needed for human life in the natural world. Theoretically the Djinn spirit being cast out of the heaven into the Earth, then the male body (of man) being made from the dust of the Earth, implies that the human form (mind in earth) had the (djinn essence). The two creatures on earth are now one and/or the same. When the creator breathed of his spirit up into the nostril the man became a living soul. The woman's female biological form made from the rib of the man had the djinn essence in its bone marrow. Djinn mentality can only influence the man (mind: father, leadership, government, and/or nation) by way of the woman (womb of mind: mother, church, school, and/or society). Man enters the physical material world in the human form from generation to generation by way of a sperm cell (the human seed) carrying an electrical charge (plasma, lightning, the divine spirit). At birth and emergence of the "God's child" (son of man and or daughter of Zion) into the material world, the parents (mother and father) must offer the word of their creator (Kalima-tul Allah) into both ears so the manchild becomes a living soul (the fruit of Islam from the tree of life) that can fulfill the destiny of growth from dust to divine. *NOTE: The 144,000 are mentioned as "firstfruits to God and the Lamb" in* ***Revelation 14:4****, described as those redeemed from the earth who follow the Lamb, are virgins, blameless, and have no lies in their mouths, representing a dedicated, pure group from Israel who witness God's salvation during the end times, leading to a greater harvest.* An angel prevents harm to the earth until God's servants are sealed on their foreheads (salat), signifying divine protection and ownership. They represent the complete Church (all believers, Jewish and Gentile) as God's redeemed people, sealed and protected. **Revelation 1:20**: Explains the symbolic meaning: "The seven stars you saw in my right hand are the seven angels of the seven churches, and the seven golden lamp stands you saw are the seven churches".

The seven churches represent the seven religious organizations on earth today: Judaism, Christianity, Islam, Hinduism, Buddhism, Baha'ism, and Atheism. An angel is a sign to each church that will Guard the true believers from each church.

Mystic Revelation

The holy Bible book of revelations chapter 13

13:1 And I stood upon the sand of the sea, and saw a beast rise up out of the sea, having seven heads and ten horns, and upon his horns ten crowns, and upon his heads the name of blasphemy

13:2 And the beast which I saw was like unto a leopard, and his feet were as the feet of a bear, and his mouth as the mouth of a lion: and the dragon gave him his power, and his seat, and great authority

13:3 And I saw one of his heads as it were wounded to death; and his deadly wound was healed: and all the world wondered after the beast.

13:4 And they worshipped the dragon which gave power unto the beast: and they worshipped the beast, saying, who is like unto the beast? who is able to make war with him?
13:5 And there was given unto him a mouth speaking great things and blasphemies; and power was given unto him to continue forty and two months.
13:6 And he opened his mouth in blasphemy against God, to blaspheme his name, and his tabernacle, and them that dwell in heaven.
13:7 And it was given unto him to make war with the saints, and to overcome them: and power was given him over all kindreds, and tongues, and nations.
13:8 And all that dwell upon the earth shall worship him, whose names are not written in the book of life of the Lamb slain from the foundation of the world.
13:9 If any man have an ear, let him hear.
13:10 He that leadeth into captivity shall go into captivity: he that killeth with the sword must be killed with the sword. Here is the patience and the faith of the saints.
13:11 And I beheld another beast coming up out of the earth; and he had two horns like a lamb, and he spake as a dragon.
13:12 And he exerciseth all the power of the first beast before him, and causeth the earth and them which dwell therein to worship the first beast, whose deadly wound was healed.
13:13 And he doeth great wonders, so that he maketh fire come down from heaven on the earth in the sight of men,
13:14 And deceiveth them that dwell on the earth by the means of those miracles which he had power to do in the sight of the beast; saying to them that dwell on the earth, that they should make an image to the beast, which had the wound by a sword, and did live.
13:15 And he had power to give life unto the image of the beast, that the image of the beast should both speak, and cause that as many as would not worship the image of the beast should be killed.
13:16 And he causeth all, both small and great, rich and poor, free and bond, to receive a mark in their right hand, or in their foreheads:
13:17 And that no man might buy or sell, save he that had the mark, or the name of the beast, or the number of his name.
13:18 Here is wisdom. Let him that hath understanding count the number of the beast: for it is the number of a man; and his number is Six hundred threescore and six.

"Weep not: behold, the Lion of the tribe of Juda, the Root of David, hath prevailed to open the book, and to loose the seven seals thereof."

Prophecy of Doom

The first beast of the sea

In Revelation, the sea allegorically represents *chaotic, rebellious humanity, evil forces, and unstable nations,* contrasting with God's stable "land," with the vision of "no more sea" symbolizing the ultimate eradication of sin, chaos, and evil in the New Jerusalem, **Yerushalayim** (יְרוּשָׁלַיִם), meaning "to see" or "to fear," leading to meanings like **"Vision of Peace"** or **"Awe of Peace"**. signifying God's peaceful, ordered, and unified kingdom. The sea is a source of anxiety and disorder in ancient thought, where monsters rise from it, a symbolism linked to wicked political powers emerging from restless peoples. (The seven heads of the beast: Egypt, 1. Assyria, 2. Babylon, 3. Mido-Persia, 4. Greece, 5. Rome, 6. America, 7. One of the seven heads being morally wounded, is reference conquest of the Roman Empire in 1453 by the Ottoman Empire) In the Bible's Book of Revelation (chapter 13), one of the first beast's seven heads is described as being "slain to death," yet its "mortal wound was healed," causing the entire world to follow the beast in wonder. This event is widely interpreted by scholars and theologians as "The Roman Catholic Church," a **counterfeit resurrection** designed to mimic the death and resurrection of Jesus Christ to deceive humanity. The seven continents on The Earth: Africa, Asia, North America, South America, Europe, Australia, and Antarctica that are ruled and controlled by the beast. The **ten crowns** represent **ten kings** (or kingdoms) who exercise authority concurrently with the beast.) The first beast in Revelation (Chapter 13) symbolizes tyrannical, anti-God political powers, often identified with the oppressive Roman Empire of John's time, but also representing all oppressive world systems and a future final "Antichrist" figure embodying Satan's opposition to Christ and His followers, demanding worship and persecuting believers. It's a composite beast drawing from Daniel's visions, representing global, blasphemous power that claims divine authority and controls economic life (the mark of the beast).

The second beast of the earth

This beast comes out of the earth whose overall appearance is not described, other than having "two horns like a lamb", and speaking "like a dragon". His purpose is to promote the authority of the Sea Beast with the ability to perform great signs, even making fire come down out of Heaven In Revelation 13:11, the "earth" symbolizes a more stable, terrestrial realm, often interpreted as humanity, established society, or a specific locale (like Israel) from which the deceptive "False Prophet" arises, contrasting with the chaotic "sea" (nations/chaos) where the first beast emerged; it signifies earthly wisdom, power structures, and false religion working to enforce worship of the first beast through deception, signs, and economic control, often linked to local leadership enforcing the imperial cult in the Roman Empire. Scholars who have not been influenced by Catholicism's brand of "preterism" (an interpretation that does not reach in scope beyond Imperial Rome), contend that the second beast most significantly represented the fomenting **apostate church** (that is a church that had digressed from the primitive pattern of Christianity; cf. 2 Thessalonians 2:1ff; 1 Timothy 4:1ff; 2 Timothy 4:1ff). This was a movement consisting of an amalgamation of pagan Rome, and the corrupt church (a mixture of degenerate Christianity and heathen religion). These varying elements eventually evolved into the system known today as Catholicism (in its three prominent modern forms—Roman, Greek Orthodox, and Anglican).

The Dragon

In Revelation 13, the **Dragon** is the primary source of evil, identified earlier in the book (Chapter 12) as **Satan** or the devil. In this specific chapter, the Dragon works as the mastermind behind a global system of deception and persecution, forming the first member of what many scholars call the "unholy trinity". Following his expulsion from heaven in Chapter 12, the Dragon uses the two beasts of Chapter 13 to persecute "the offspring of the woman"—those who keep God's commandments and hold the testimony of Jesus.

The Judgment Day

The Bible describes Judgment Day as a final, universal event where everyone, great and small, will stand before God's judgment throne to be judged for their deeds, separating the righteous for eternal life and the wicked for punishment in the lake of fire, with believers facing evaluation for rewards rather than condemnation, based on their faith and actions. Key events include the resurrection of the dead, opening of books (Book of Life), Jesus separating people like sheep and goats, and final sentencing.

Universality: All people, believers and unbelievers, will appear before Christ.

The Judge: Jesus Christ will judge all, as God has entrusted all judgment to the Son (John 5:22).

Basis of Judgment: People will be judged according to their actions, words, thoughts, and the use of their lives and gifts.

The Books: Books will be opened, including the Book of Life, to record deeds (Revelation 20:12).

Separation: Jesus will separate people, like a shepherd separates sheep from goats (Matthew 25:31-46).

For Believers (the Righteous)

Evaluation, Not Condemnation: They face the Judgment Seat of Christ (Bema seat) for reward, not condemnation (2 Corinthians 5:10).

Focus on Motives: This judgment reveals character and faithfulness, assessing how they used their lives for God.

Vindicated by Faith: Justification through Christ's sacrifice makes them righteous, earning eternal life.

For Unbelievers (the Wicked)

Final Condemnation: Those not in the Book of Life are cast into the lake of fire (Revelation 20:15).

Punishment for Deeds: They receive punishment according to their evil deeds (Romans 2:5-6).

The Quran describes Judgment Day (Yawm al-Qiyamah) as a definitive Day of Resurrection and Reckoning where Allah judges all humanity for their deeds, marked by trumpet blasts, the end of the world, and the resurrection of the dead, leading to eternal reward in Paradise or punishment in Hell, emphasizing universal justice where every soul's deeds are weighed precisely, a concept known as "The Scales of Justice" in Islam.

Key Events & Concepts:

- **The Trumpet (Sur):** Angel Israfil will blow the trumpet twice: once to end all life and the world, and again for resurrection.
- **Resurrection (Ba'th):** All deceased humans, jinn, and animals will be brought back to life and gathered in a vast plain.
- **Gathering (Al-Hashr):** People will assemble before Allah in separate groups to be shown their deeds, with a record given to each person.
- **The Scale (Mizan):** Justice will be served through scales where good and bad deeds are weighed, ensuring no injustice, even for the weight of a mustard seed.
- **The Book of Deeds (Kitab al-A'mal):** Everyone will receive their record of deeds, revealing all past actions.
- **The Day's Intensity:** It will be a terrifying, long day (potentially 50,000 years) for many, with extreme heat, but believers will find shade under Allah's Throne.
- **Outcomes:** The righteous will enter Paradise (Jannah), while wrongdoers will face punishment in Hell (Jahannam).

THE GATHERING

The three Stations leading to the seat of judgment starting with our paternal father, Adam peace be upon him, at The Terminal, (Spiritual Death). The ascension begins with our maternal father, Abraham, peace be upon him, at Egotism Station One (Divine Unity). Leading to the “Comforter, Prince of Peace, and Spirit of Truth” Muhammad Peace be upon him, at Heart Station Two (Fulfillment of Prophecy). Resting finally with the “Son of Man,” Jesus, peace be upon him, at Soul Station Three (judgment seat). That phrase, "**You will see the Son of Man sitting at the right hand of Power, and coming with the clouds of heaven,**" is a pivotal declaration by Jesus Christ, notably found in **Mark 14:62** (also similar in Matthew 26:64, Luke 22:69), spoken during His trial before the High Priest, affirming His divine authority, and future glorious return, leading to His condemnation for blasphemy.

In the Final Call on the Day of Judgment, the believers who followed the teachings of righteousness that was revealed to them will have Mercy bestowed upon them. The Prophet’s, Messengers, and Warner’s that those revelations were revealed to will intercede on the behalf of those who follow their teachings.

Summary

Timeline: "World Crisis" The document titled "Timeline: World Crisis" presents a comprehensive historical and spiritual overview of humanity, tracing major events from prehistoric times through ancient civilizations, religious milestones, and into modern and future world orders. It integrates religious perspectives, particularly Islamic and Biblical references, with philosophical insights into the nature of man, mind, and spiritual development.

Historical Timeline and World Orders The timeline begins with early human achievements such as harnessing fire (2,000,000 B.C.) and the Stone Age (10,000 B.C.), moving through the births and lives of major prophets including Adam, Noah, Abraham, Moses, Jesus, and Muhammad (PBUH) (paragraphs 6-34). It outlines the rise and fall of empires such as the Egyptian, Babylonian, Persian, and Roman empires, and notes significant religious events such as the Council of Nicaea in 325 and the revelation of the Quran in 610 (paragraphs 12-34).

Old World Order This period encompasses the Mosaic Law, early Christian doctrine developments, Crusades, the Renaissance, and the invention of the printing press, culminating in events like the discovery of America and the end of the Islamic Khalifa (paragraphs 27-46).

Present World Order Focusing on more recent history, this section details the establishment of British colonies, the American Revolution, the invention of electricity, the Civil War, Jim Crow laws, the introduction of the Federal Reserve, world wars, economic crises, and technological advancements such as the airplane and nuclear energy. It also references social and political upheavals, including the assassinations of prominent figures and the COVID-19 pandemic, concluding with ongoing conflicts such as the Ukraine-Russian war (paragraphs 48-113).

New World Order This section projects future events, including political predictions and economic forecasts like gold prices and government reforms, highlighting anticipated developments in governance and warfare (paragraphs 114-117).

The Nature of Man, Djinn, and Spirituality The document explores the dual nature of human beings as composed of both "Man" (mind) and "Djinn" (spiritual entities), emphasizing their symbiotic relationship within the brain. Man represents conscious thought and reasoning, while Djinn governs subconscious primal instincts (paragraphs 149-151). It describes how failure to control the Djinn leads to materialism and destruction, turning man into a "gentile" ruled by emotions (paragraph 153).

Spiritual States and Consciousness Different states of mind and spiritual development are outlined, from ordinary and self-consciousness to cosmic and divine consciousness. The text describes stages of the self, such as Nafs Ammarah (inclined to evil), Nafs Lawwamah (self-accusing), and Nafs Mutma'innah (self-contented soul), illustrating a spiritual journey from base desires to ultimate peace and union with the Creator (paragraphs 160-167, 286-294).

Man and Woman: Roles and Creation Man is depicted as the "Vice-Regent" of the Creator, made in the divine image, while woman is the "Mother of Civilization" and helpmeet to man. The creation process is described biblically, referencing Genesis about Adam and Eve, emphasizing the spiritual and physical union necessary for human destiny (paragraphs 149-150, 346-359).

The Concept of God, Angels, and Djinn The document clarifies theological concepts, distinguishing Allah as the unique, genderless, and singular God in Islamic theology, different from the generic term "God" used in other languages. Angels are described as obedient beings of light without free will, while Djinn are fiery, intelligent beings with free will who can influence humans negatively or positively (paragraphs 199-202, 228-241).

The Power of Words and Creation It emphasizes that worlds are formed by words, with the Creator's command "BE" bringing existence. Human beings, created from dust and water, have the capacity for free will and spiritual growth, with truth and falsehood shaping their inner realities. The document explains how falsehood leads to duality and the conception of good and evil as separate forces (paragraphs 262-266).

Religious and Scriptural References The document incorporates Quranic verses and Biblical passages to support its themes, such as Al-Falaq (The Daybreak) for seeking protection from evil, and Genesis on the creation of man and woman. It also discusses the meaning of "Christ" as an attribute of the Creator and clarifies misconceptions about Jesus' crucifixion (paragraphs 207-227, 346-359).

Summary of Human Spiritual Evolution The spiritual evolution of man is portrayed as a progression through stages of consciousness and moral development, culminating in the "Resurrected Human" who attains peace and contentment through submission to Allah. This journey involves overcoming the lower self and aligning with divine will, ultimately achieving paradise in this life (paragraphs 280-295).

Conclusion Overall, the document intertwines historical chronology with spiritual philosophy, emphasizing the intertwined destinies of humanity, spiritual beings, and divine will. It presents a worldview where understanding and mastering the inner self and spiritual forces is essential for fulfilling human potential and achieving peace on earth.
